**BIRTHRIGHT**  
DELIVERY BED RANGE

...with people in mind

## THE PRACTICAL CHOICE

Convenient storage: wall-mounted accessory rack

### Accessories and storage

The *Birtright* system includes a full range of attachable accessories, designed to optimize positioning for delivery or clinical procedures.

A mobile trolley keeps accessories neatly stored when not in use. Alternatively, a wall-mounted accessory rack is available for areas with limited space.

## A SINGLE SOLUTION FOR LABOUR, DELIVERY AND RECOVERY

*Birtright*™ is an electrically operated delivery bed designed to provide support for mother, and efficient functionality for nursing staff, throughout all stages of the birthing process. Its flexibility and ease-of-use offers a practical, cost-effective solution for the modern, progressive labour suite.

Removable mattress platform sections make the bed easy to clean.

Electrically operated height and backrest adjustments reduce handling risks.

Dual-sided levers lower the backrest instantly in the event of an emergency.

Adjustable safety sides, fitted as standard, are removable when not required.

### Additional features and benefits:

- Manual Trendelenburg tilt to 12° for clinical management
- Retractable platform with 2-part mattress, optimizing access to the perineal area
- Removable platform sheets for easier cleaning and improved infection control
- Dual-side manual CPR release levers for backrest
- Central brake/steer castor system for optimum stability and manoeuvrability
- Battery back-up in the event of mains power failure
- Comprehensive range of easy-to-fit accessories
